Thank you for choosing XLVOX Inc. Local number portability allows you to keep your current number while changing your service provider to XLVOX. XLVOX will work with your previous service provider to transition your number as quickly as possible, however this process normally takes 4 to 6 weeks to complete. If there are any unusual delays, you will be notified via e-mail by a XLVOX representative.

Your existing phone service provider requires this letter as proof that you have explicitly authorized and requested that your current telephone number be transferred to another service provider. By providing all of the information requested above and signing and dating this letter, you authorize XLVOX to start the process of transferring your telephone number so that XLVOX may be your service provider. You will then be able to use your old number with your new XLVOX service.
